

ProJet® 3500 SD & HD

Professional 3D Printers

Easily create high-definition, precise plastic functional prototypes and end-use parts

The ProJet® 3500 series of plastic 3D printers are ideal for creating durable, high-definition functional prototypes, rapid tooling such as injection molds and casting patterns, and end-use parts right in your office. This versatile range of workhorse printers is easy to use, with fast print times and easy post-processing. Parts made on ProJet 3500s are beautifully precise, with sharp edges and true-to-CAD fidelity. Efficient material use, low-maintenance operation and a five-year print head warranty means you can print with confidence and keep costs down.

Using 3D Systems' MultiJet Printing (MJP) technology and VisiJet® M3 performance engineered materials, ProJet 3500s print in hard ABS-like plastics in a variety of colors, tensile strengths and other properties to match your application—including clear and biocompatible parts. You can even print sacrificial patterns in precision-castable plastics

MANUFACTURING THE FUTURE

Productive, high-capacity ProJet® 3500 professional printers

The widest applications range: concept models, verification models, pre-production, digital manufacturing

Easy connectivity and high productivity with high resolution and accuracy

ProJet 3510 SD

The affordable ProJet 3510 SD prints high-quality, durable plastic parts for engineering and mechanical design applications, including functional testing, form and fit verification, rapid prototyping, design communication, rapid tooling and more. This office-friendly 3D printer delivers exceptional parts on demand.

AFFORDABILITY • QUALITY • EASE-OF-USE

ProJet 3510 HDPlus

The ProJet 3510 HDPlus offers the flexibility to choose between three resolution modes to print concept models, verification prototypes and patterns for pre-production and digital manufacturing. Just connect to the printer to create extremely fine-featured plastic parts with greater output.

RESOLUTION *Plus* • PARTS SIZE *Plus* • FLEXIBILITY *Plus*

ProJet 3510 HD

The ProJet 3510 HD prints precision, durable plastic parts ideal for functional testing, design communication, rapid manufacturing, rapid tooling and more. With a choice in materials and selectable print resolutions, this office-friendly, easy-to-use 3D printer is packed with features that help you maximize your return on investment (ROI).

HIGH DEFINITION • PRECISION • PRODUCTIVITY

ProJet 3500 HDMax

The high-capacity ProJet 3500 HDMax offers greater productivity, especially with the high-speed printing mode, and larger high-definition prints for the production of functional plastic parts. Users also benefit from increased throughput, part size, feature detail and quality only possible with ProJet printers.

Max THROUGHPUT • *Max* DEFINITION • *Max* VOLUME

VisiJet® M3 Materials for ProJet SD & HD Printers

The VisiJet line of plastic materials offers numerous capabilities to meet a variety of commercial applications. 3D Systems' ProJet 3500 3D printers use VisiJet M3 materials to build accurate, high-definition models and prototypes for proof of concept, functional testing, master patterns for moldmaking, and direct investment casting. Vertical markets for the ProJet 3500 line include transportation, energy, consumer products, recreation, healthcare and education. Toughness, high temperature resistance, durability, stability, watertightness, biocompatibility and castability are a few of the key attributes you will find within the VisiJet M3 materials line. Parts can be drilled, glued, painted, plated, etc. Support material offers easy, non-hazardous post-processing and preserves delicate features.
